

Power BI Project Request Form

Pre-Development Requirements Intake

1. Requestor Information

Name	Brenan Howard
Department / Team	Head of Sales and Product
Email	brenanh@bluebarrelcoffee.co
Date Submitted	20 June 2026

Priority	Urgent
----------	--------

2. Project Background

Project Title

Blue Barrel Coffee Sales and Product Analysis for H1 2026

Business Problem / Opportunity

What isn't working today, or what decision can't currently be made without this?

1. Management doesn't have a consolidated overview of sales, demand and traffic of the 3 stores so order of food and beverage ingredients, staffing decision are done, based only on gut.
2. Management only get separate report on sales in excel from 3 stores, so marketing team make promotions blindly, hard to track the result (nothing to benchmark to).
3. Management acknowledges the need to utilize available data in a consolidated report to understand customer behavior and make better informed business decisions like staffing, inventory optimization, promotion bundling. Ultimately optimize cost and drive more sales.

Current Process

How is this being done today (Excel, another tool, manual reporting)?

Manual reporting by excel

Goal*What should be possible once this dashboard exists?*

1. Understand each product category sales and other metrics to make informed business decisions in terms of marketing and inventory (which products to prioritize, which products need to be replaced/repositioned)
2. Understand customer behavior based on the transaction recorded to make new marketing program to drive more sales (tracked by metrics in part 5 of this document below)

3. Audience & Stakeholders**Who Will Use This Dashboard?**

Head of Sales and Product; Store Ops; Marketing; BI Team	
Primary Decision-Maker / Approver	Head of Sales and Product
Expected Number of Users	10
Audience's Power BI Experience	Beginner

4. Data Sources**Systems / Files Involved**

Excel files only, across 3 stores	
Data Owner / Contact	Store Managers in Astoria, Hell's Kitchen and Lower Manhattan
Approx. Data Volume (rows / size)	Approx 3-10MB per excel file contains 2000 – 40000 rows
Historical Data Needed (how far back)	Starting from store opening (Jan 2025)
Is the Data Already Clean?	Needs significant work

5. Requirements

Key Questions the Dashboard Must Answer

1. Which products drive most of the sales across 3 stores in H1 2026 consistently and by how much percent of total?
2. Which products drive least sales across 3 stores in H1 2026 consistently and by how much percent of total?
3. How are the trend of Sales, Avg Order Value, Avg Basket Size, Num of Transaction and Units Sold in H1 2026 benchmarked to previous year (2025) and by how much percent are the differences?
4. How is customer behavior in terms of store visit across hour of the day, week of month?
5. Which store can reach most of the daily sales target?

Must-Have Metrics / KPIs

Compare growth YoY

1. Sales Revenue in USD
2. #Transaction
3. Units Sold
4. Average Order Value
5. Average Basket Size

Compare across store

6. Pareto of Product Category and SubCategory

Nice-to-Have Metrics / KPIs

Compare Growth MoM

1. Sales Revenue in USD
2. #Transaction
3. Units Sold
4. Average Order Value
5. Average Basket Size

Required Filters / Slicers.

By Month for Monthly Analysis and Demand Traffic Analysis

By Store, Product Category, Product Sub Category

Tricky or Non-Standard Business Logic

Need to calculate running total and percent of total to create pareto chart

6. Refresh & Timing

Data Refresh Frequency	Daily
Deadline / Key Date This Is Tied To	30 June 2026

7. Access & Security**Row-Level Security Needs**

1. Store Manager / Ops should only see the report their own store
2. Head of Sales and Product + Marketing team can see all reports

Contains Confidential / Sensitive Data?	No
Where Will This Be Published?	Power BI Service workspace

8. Design & Output Preferences

Preferred Format	Interactive dashboard
Mobile View Needed?	No

Branding Requirements

Brand guidelines attached

Reference Examples

9. Success Criteria**How Will We Know This Project Succeeded?**

- | |
|--|
| <ol style="list-style-type: none"> 1. Blue Barrel Coffee understand which products drive most of the sales, which ones are the remaining sales-driver across H1 2026, to optimize inventory and create promotion for marketing team to drive more sales, increase Avg Order Value and Avg Basket Size. 2. Blue Barrel Coffee understand busiest/slowest hour of the day, day of week, week of month to optimize staffing, inventory and create promotion to drive more sales in the slow hour/day/week. 3. Head of Sales Product can make faster informed business decisions. Reduce decision making time from 7 working days to 3 days (<50% time reduction). |
